Memo to File

RE: South Fork Mining Co.
Grand County, Utah
ACT/019/012

On June 4, 1980 Thomas J. Suchoski of the Division's staff visited the site and determined that as a small operation qualifies as a DOE as present development is contemplated. In telephone communications with J.R. Walker of South Fork Mining Company on June 17, 1980 Mr. Suchoski indicated the qualifications to him and that he would send in the MR form 4 to him and that he had to complete that and return it to the Division, as well as contact the Division of State Lands in regard to the State Section that the site is located on. This taking place, the Division would approve the DOE.

THOMAS J. SUCHOSKI
ENGINEERING GEOLOGIST
